

SAVE TIME AND MONEY

Get your care at the right care provider.

Did you know that the same care service can cost less at different care providers?

And the same providers that save you money can also save you time?

Think twice about this type of care:

Blood tests to count blood cells and measure glucose, cholesterol levels and thyroid function, may cost more if performed at a hospital. You can save money by taking your blood test prescription to a non-hospital lab instead.

You can also save time. These labs are more often quick and convenient. And getting blood tested at a lab may be more efficient. These facilities are dedicated to providing this service.

Wondering how much you can save? Log in to your Highmark member website at highmarkbcbsde.com, click **Your Spending** and **Care Cost Estimator**.

Questions?

Call 1-844-459-6452.

As a Highmark member, you don't have to go out of your way to spend less. Wherever you live or work, there's a lab that offers prompt, quality, cost-saving care.

120 Fifth Avenue Place
Pittsburgh, PA 15222

Wondering where you can save?

You can locate a non-hospital lab (like LabCorp) near you by logging in to your member website. Click **Find a Provider**, then **Search for a Laboratory**. Enter your ZIP code.
