* The following conditions apply for ophthalmology and optometry services: children under 18 require an authorization for routine services; children under 18 do not require an authorization for medical services; adults do not require an authorization for any office service

Services (consultations and in-office treatments only) must be performed by a BCBSD network provider and must be done in a provider's office.

Services that are performed by an out-of-network provider or in a site other than an in-network provider's office (such as surgery performed in a hospital) will still need an authorization prior to service.

Please note that all other terms and conditions of member benefits plans, including medical necessity and preexisting conditions, still apply.
