Order a new prescription for a generic and *pay nothing* for the first supply!

Dear <First Name> <Last Name>:

You shouldn't have to pay more than you need to for prescriptions. So you'll be pleased to hear about a new feature of your State of Delaware prescription drug benefit for 2012.

First supply at no cost to you

Effective January 1, if you fill a new generic maintenance prescription,* you'll receive your first supply at no cost to you. You will have this opportunity through April 15, 2012.

Save all year

That means you'll pay **\$0 for up to a 90-day supply[†]** of a long-term medication, whether you get it at a participating Retail Maintenance Pharmacy or through the **Medco Pharmacy[®]** mail-order service. And you could continue to save all year long, because generics typically cost less than the brand-name drugs that are covered under your plan.

To be eligible for this offer, you must have filled a prescription for a brand-name drug in the same category as the generic within the past 12 months. For instance, if you're taking *Lescol[®]* to treat high cholesterol, you'll pay nothing for your first supply of lovastatin. Or if you're taking *Aciphex[®]* to treat an ulcer, your first supply of omeprazole will cost you \$0. Please see the attached list for additional examples.

Get a new generic prescription and pay \$0

Talk to your doctor and ask whether a generic would be right for you. If your doctor agrees, ask for a new prescription for up to a 90-day supply, plus refills for up to 1 year, as appropriate. Then have it filled at a participating Retail Maintenance Pharmacy or mail it to the Medco Pharmacy.

Don't wait. **Fill a new maintenance generic prescription today and pay nothing.** If you have any questions or want to confirm that you're eligible for the \$0 offer, call Member Services toll-free at 1 800 939-2142.

Sincerely,

Tracy L. Furgiuele, R.Ph.
Chief Pharmacist, Medco

* A new generic prescription is one that has not been filled at a participating Retail Maintenance Pharmacy or through the Medco Pharmacy within the past 12 months. Prescriptions for specialty drugs are not eligible for this offer.

† Your plan or state regulations may limit the amount of medication you receive.

If you're using the Medco Pharmacy or a Retail Maintenance Pharmacy to get a brand medication that has recently become available as a generic (or will become so during the waiver period), it is not eligible for this offer. Such medications include (but are not limited to) *Cozaar*[®], *Flomax*[®], *Hyzaar*[®], *Prevacid*[®], and *Valtrex*[®].

Medco manages your prescription drug benefit for the State of Delaware.
