WHAT QUESTIONS TO ASK?

DURING THE EXAM:

- Ask questions about anything that seems unclear to you, such as the names and purposes of tests your health care provider may order.
- Ask if there are any changes since your last exam.

WHEN A TEST OR SCREENING IS ORDERED, ASK:

- What is the name of the test/screening?
- What does the test/screening detect?
- How do you prepare for the test/screening? Are there any preparation instructions?
- Where will the test/screening be done?
- How long does the test/screening take?
- Will I need to arrange for someone to take me home after the test/screening?
- Ask when it is best to call the health care provider with questions.
- Find out when you should return for your next exam.
