

## Name Change: Dominion Dental To Dominion National

### What's Changing?

⇒ Dominion Dental has changed its corporate name to Dominion National. With their new name comes a new logo, look and website.

### And Why?

⇒ The new name reflects Dominion's geographic expansion and growing portfolio of products and services.

Although members will see the new corporate name reflected in the materials they receive and on the SBO website, they will not see any changes to their dental coverage as a result of this change. No action is required as a result of the new name. Member benefits and network will continue as is and current members can continue to use their current ID cards with Dominion Dental on them.
